

MANISH KUMAR THAKUR

Software Engineer | Python | JavaScript | DSA | SQL | REST APIs

+91 8595967494 | mkthakur2301@gmail.com | linkedin.com/in/manish-kumar-thakur-554036278 | github.com/Manish511T

PROFILE

Software Engineer with hands-on experience in **Python, Django, REST APIs, SQL, JavaScript, and Object-Oriented Programming**. Strong understanding of **Data Structures & Algorithms, problem solving, CRUD operations, database management, and API integration**. Experienced in building web applications using Django, Django REST Framework, React.js, and JavaScript, with practical experience using Git and GitHub.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript (ES6+)

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Backend: Django, Django REST Framework (DRF), REST APIs, CRUD Operations, Authentication & Authorization, JWT.

Database: MySQL, SQLite, MongoDB

Frontend: HTML5, CSS3, JavaScript, React.js, Redux Toolkit, Tailwind CSS, Responsive Web Design

Tools : Git, GitHub, Postman

Mobile: React Native (Basics)

FREELANCE EXPERIENCE

Freelance Web Developer - 2024

Ghoomo Yatri – Tour & Travel Website | React.js, Firebase

- Delivered a full freelance client project - a tour and travel booking website for “Ghoomo Yatri”, handling the **complete development lifecycle** from requirement gathering to **production deployment**.
- Designed a **fully responsive mobile-first UI** ensuring seamless browsing experience across smartphones, tablets, and desktops — critical for travel audience demographics.
- Built dynamic tour listings with filtering, itineraries, and pricing details.

PROJECTS

AI Movie Explorer – Netflix Inspired Platform – *React, Redux Toolkit, Tailwind CSS, Firebase, TMDB API, Gemini AI*

GitHub: <https://github.com/Manish511T/NetflixGPT>

- Developed an AI-powered movie discovery platform integrating **Gemini API** and **TMDB API** to process natural language queries and return **top 5 contextual movie recommendations**.
- Implemented **Redux Toolkit** for global state management, optimizing asynchronous API workflows.
- Designed a **responsive Netflix-style UI** using Tailwind CSS supporting mobile, tablet, and desktop screens.
- Built **Shimmer UI** skeleton loaders to **improve perceived performance** during **API loading states**.

ATS Resume Checker – *Django, DRF, Python, Groq LLM*

GitHub: https://github.com/Manish511T/Resume_ATS_Checker

- Developed a REST API using Django REST Framework** to analyze uploaded PDF resumes against job descriptions using **Groq LLM**.
- Implemented PDF text extraction with **pdfplumber** and automated analysis for skills, experience, project categories, and job relevance scoring.
- Developed validated REST endpoints with structured JSON responses and secure environment-based API-key management.
- Structured the application using Django models, serializers, views, and API-based request/response handling.

CERTIFICATIONS

- Namaste React Certification – NamasteDev (Instructor: Akshay Saini)

ACHIEVEMENTS

1st Position – HackQuiz (MIMT, 2025),

2nd Position – HIMT Hack Fest 1.0 (2024)

EDUCATION

Bachelor of Computer Applications (BCA)

Harlal Institute of Management and Technology, Greater Noida

Aug 2023 – Jul 2026

Percentage: 71%
